## Car Ownership Program – Client's Personal Statement

Client # \_\_\_\_\_

Your personal statement is very important. You have the opportunity to tell your story. The Loan Committee will use what you say here to help them decide about approving (or denying) you a car loan. A CAREs loan is NOT based on your credit score – it is based on your character. It is better to write MORE than to write LESS. Be sure to answer each question. **Do not use your name or the names of family members when doing this. Also, do not include addresses or anything else that could reveal to the loan committee your identity.** All information that the loan committee gets about a client comes without identifiers to protect your personal information and your privacy. Please attach a separate sheet if necessary. (Rev.10/19)

**Tell us about yourself (without using names)**

**How will reliable transportation help you?**

**How are you getting around now?**

**Tell us about your plans for the future**

**Any additional comments:**
